WRITING

Dear Anthony,

Hello, how are you? I'm sorry for not responding to your letters in so long. Anyways, in your last letter you asked me to recommend you a book by a Russian writer, so you can dive into the world of Russian literature. So here's my review of "Captain's daughter" by Pushkin.

The book has lots of memorable characters and an amazing story. I'll try not to spoil your experience, so don't worry. The book stars Grinev a young officer who is in love with Mary. But so is the evil Shatov. Will Grinev be able to marry his love, or will Shatov get in their way? Find out in the story masterfully crafted by Pushkin.

Hope I've got you interested!

With love,

Dan

My dear friend,

I am so I'm glad to to talk to you again. I want to tell you about sp. gr. the book which I get a week ago.

Well, it's a fantasy story „Chasdei” by Natalia Sherba which tells us about people who have wings and can control the time. The main character of the story is > Vasilisa Ogneva, a girl who didn't know that she has magic powers. With her friends, Vasilisa fought against the famous chasdei Astragor, who wanted to become the most powerful wizard in the world.

Natalia Sherba is a very talented writer - she can make her own world on the pages of her books. I really recommend you to read this story.

Unfortunately, I have to end my letter because I need to do my homework. I'm waiting for your letter!

WRITING

Dear pen pal,

I am writing to you to tell you about a book that I've read recently. It was written by Alexander Sergeyevich Pushkin. Pushkin. The name of the book is "Copper Horseman". This book about a man who lost his jacket in flood in Saint-Petersburg and he became very angry on this city and on Peter I. But he didn't notice that this city was very important because without it we couldn't sail to the other countries and wouldn't make a good economy with the other towns and cities. As for me, I don't like it. S. Pushkin's books, but this book was really good and interested in its reading.

106 I totally recommend it to you

Dear Kate,

Thank you for your letter. I couldn't reply earlier because I had some problems at school.

I would like to talk about books. I am fond of reading. A day ago I finished reading a book by a famous Russian writer A. Pushkin "The captain's daughter". Pushkin is my favorite writer and I love all of his books. "The captain's daughter" is a very interesting and exciting novel. I loved the main characters M. Mironova and R. Brinyov. This is my favorite novel now and I would recommend you this book to read.

Sorry, I have to stop writing and help my mother. Tell me about your favorite book. Hope to hear from you soon.

Dear Peter,

Thank you for your letter.

6

I want to tell you about the book I have read yesterday. Its title is "A fairy tale about the fisher and fish". I know that you are still learning Russian language so you can read it in English. Read it at home. The plot is very interesting so you could not stop reading. There are a few characters in this fairy tale. The story is about old fisher that catched a magic fish. That fish could make all man's wishes real. I wouldn't tell you all about this story.

Sorry, I have to finish my letter because my mom is calling me.

Best wishes,
Vova

I finished reading a book by a famous Russian writer ~~a day ago~~. It was written by Alexander ~~Pouchkin~~ Pushkin. The book was marvellous and exciting. And it called "Station seemer". This book was about poor man that had a ~~daughter~~ daughter. Her name was Dung. She was very smart and beautiful. But suddenly she went away with a rich man to Petersburg. He father didn't know where she was and what she was doing. To be honest, he was afraid of her. At the time his daughter came to visit her father but he died. She was disappointed and shaked. So, this tragic story learnt me that our parents are our nearest and dearest persons that we have. I would definitely recommend you to read this book.

Dear Betty,

I have written to you many days ago. How are you?
 A day ago I have finished reading a book by A. Pushkin
 "Boris Godunov". I think it is very interesting. Pushkin
 wrote this work greatly. This author is very talented.
 The main characters of this book are tsar Boris Godunov
 and Grigoriy, who acted out the prince Dimitriy. The
 young prince had died and Grigoriy took his place. This
 war between the tsar and "the Prince" is very exciting. But
 I will not tell you all the plot, read it yourself. I recommend
 you this book because there is beautiful Pushkin's language
 and a very fantastic plot.

Write back soon.

Dear Tom,

A few days ago I read a book written by a famous author Pushkin "Tukobza gosha", and I'd like to give a review of this wonderful book. It's about an old woman that found out the secret of cards, and (as every play) she was one who was winning all the card games, with this secret. And one man wanted to find out what helps her winning all the time. He was playing with feelings with one woman and her naive love helped him to get to the old woman. And what happened next you'll find out reading this book.

I hope I interested you with this book and you'll read it eventually.

With love,

WRITING

Have you ever asked yourself what comes over your head when you think of the European Cultural Heritage? For me, the answer couldn't be more clear - it's definitely Louvre. Being one of the most popular tourist attractions and museum, owning enormous and various collection of different kinds of art and culture, this seems to be the best variant.

Located in the heart of the city of love Paris, Louvre appears to be "the main stock" for all the world's best masterpieces concerning visual arts, sculpture, literature, architecture and what not. Worth mentioning the fact that its history goes way back (ancient)

to the reigns of french monarchs, and As for the building itself, we cannot reject its beauty and the whole atmosphere it provides to the place.

All in all, I think it's quite fair to let the Louvre stand out among all the other attractions and things as it's simply "located in the heart of Europe" France which won't disappear from the places in everybody's bucket list in the nearest future for sure.

2018 is the Year of European Cultural Heritage. First thing which comes to mind while thinking about the real heritage is a well-known Eiffel Tower.

Eiffel Tower is a gorgeous building which nowadays occurs to be a piece of art. It is located in Paris, France. Almost everybody find this place impressive and romantic. Thousands of couples dream about a marriage near the Eiffel Tower. At night numerous lights make the tower look even more fascinating.

Eiffel Tower was built during the technological revolution. It shows how people learned to use metall and to make whatever they want from it. That is

Why Eiffel Tower is important for history.

I suppose that we should keep Eiffel Tower for next generations because it shows how far the progress has gone. And maybe future generations will be inspired to create something beautiful while looking at this wonderful tower.

As you know, 2018 was proclaimed as the Year of European Cultural Heritage. When I first heard this, the image of Eiffel Tower occurred to me. In my opinion, the tower should be the real European Cultural Heritage. Now I want to prove why.

To begin with, as everybody knows, it is situated in France, in Paris. The tower was built long time ago. For those times, the process of establishing it was really hard, lots of young men used their hands to build this high Cultural Heritage. To my mind, we should respect their efforts. Now it's the main tourists' attraction.

In conclusion, I'd like to note that we should keep Eiffel Tower for next generation, because it is very impressive and everybody should admire its beauty

WRITING

Europe is a magnificent region full of important cultural objects. Due to proclaiming 2018 as a year of European Cultural Heritage I would like to write tell you about such an important heritage as Big Ben.

Big Ben is a huge tower with a big clock on the top. It is situated in England, London and considered as one of the most beautiful towers in the world. Every year thousands of tourists come to London to see this heritage which makes the tower one of the biggest tourist attractions. I think Big Ben should be kept for next generation because it is the tower that everyone ~~should~~ see at least

once. Besides, it helps England to attract tourists and make a huge profit.

I can tell about

There are lot of other cultural heritages in Europe that world should know about. ~~but~~
~~for now~~ But, I personally think that Big Ben is one of the brightest heritages in this world.

 Nowadays ^{most of} teenagers don't care about culture and history of their nation and country, especially in Rotherham (affectionately being before city, I came from). That's because I consider Drama Theatre to be the real English cultural heritage. Firstly, I'll tell you about its history. Drama theatre was built in 1934. Unfortunately, it was destroyed during 2nd World War by fascist occupants. In 1949 the Government of Rotherham restored the building to make people happier and give them hope after cruel war. The architectural style

135

of the building is ~~kind~~^{mix} of neo-gothic and futurism. The Drama Theatre is situated between Sadovaya and first line streets, on in the centre of the Theatre Square. I think that we should keep it for future generations because culture is very important, and also it will attract young people and will make them more interested in culture of their own region.

WRITING

There are a lot of cultural objects that should be saved but as for me I think that one of the most significant is the Lermontov's house located in the center of Pyatigorsk. It is the place where were written a lot of world-famous poems by M. Lermontov, who is one of the most famous Russian writers. Almost everything in this house is now the same as it was when poet was alive. There are a lot of his own things and also some original notes of his poems. This object should be kept because next generations should remember such talented people as Lermontov.

The works of Leonardo da Vinci as a European Cultural Heritage.

I think that the works of Leonardo da Vinci can be considered to be a European Cultural Heritage and I can explain why.

Firstly, the works of this famous artist are not only his paintings. He also wrote books from which next generations will be able to explore what was the life like in his time.

Another reason is that he had made a lot of masterpieces which can be considered as an example for future artists. ~~Medical books~~ He had discovered a lot in anatomy and this knowledge can be also useful for medical students to compare it with up-to-date information.

All these reasons prove my thoughts about being of works of Leonardo da Vinci a European Cultural Heritage and a real

very significant part of European history which we should
keep for next generations.

WRITING

2018 was proclaimed by UNESCO as the Year of European Cultural Heritage. But what's the real European cultural heritage that we should protect and keep for next generations? In my opinion, the real European heritage is its architecture. What can keep the history of people's civilizations better than buildings, churches, stadiums and castles? For example, Colosseum is one of the most famous architectural objects in Europe. It was built in Rome, Italy, thousands of years ago and it remembers Roman emperors, battles, wars and other things that even books can't tell us. But this the Tower of London, for example, used to be a castle, a prison and now it's a museum. It's a real memory of the history of Britain.

I think, European architectural objects should be protected to give next generations an opportunity to know more about their Europe's past history. 139

WRITING

European culture has a huge influence on culture nowadays, it is old but still remains very popular and widely spread: you can see Shakespeare's plays, hear Mozart's sonnets, see exhibitions of Rembrandt's paintings on every continent.

As for me, Shakespeare's play "Romeo and Juliet" is one of the most significant example of European art. It is a tragic love story about Romeo and Juliet, whose families were fighting with each other and they were against love between them.

This is both tragic (because Romeo and Juliet ~~never died~~) and beautiful story. This play contains lots of beautiful and wonderful descriptions of both landscapes and characters' feels with using old-English words. It is a real treasure of English poetry.

So, I think we should keep "Romeo and Juliet" for next generations because

it is an example of European culture of XVI century and because
it is yet another proof that Shakespeare was an outstanding
genius.

I am sure that the real European cultural heritage is the Tower. It is located in London. It is a very beautiful building. I really like gloomy atmosphere that surrounds this amazing place. Many years ago the Tower was a prison. But this prison was closed and now it is one of the most popular British museums. A lot of visitors come to London to see this magnificent place. From my point of view, it is really interesting to recognize about the place and its history by visiting it yourself. The Tower played an important role in the British history and even in the world history. So, I believe that this fantastic place should be kept for future generations. People should never forget their history and always take care about be proud of it.

This year ^{has been} proclaimed by UNESCO as the Year of European Cultural Heritage. So I decided to write a review about in my point of view one of the most impressed cultural object — Colisseum.

Colisseum is located in Rome, Italy. It is a large and poroparous stadium. Many years ago it was built for the Gladiator's fighting. For the emperor it was just entertainment but during the fights lots of people died. There is a myth that at night there are phangs of those men. After war it was Colisseum was damaged and destroyed.

I think Colisseum should be kept for the

next generations because it is really worth visiting. After visiting it you would be impressed by its large size and interesting history.

WRITING

What European cultural heritages should be kept for next generations? So many people so many opinions but I'm quite sure that it should be the Eiffel Tower.

It is a large monument which is situated in Paris in France. This tower is surrounded with a lot of cafe's and shops and stores selling coffee, croissants, long bread with cheese and souvenirs. All of this heritage has a very interesting history. The Eiffel Tower ~~had~~ had been sold twice by two different people who had not even rights for it. Moreover, the tower was considered as the most disgusting monument in the world two centuries ago. The Eiffel Tower changed the was a revolution in the world of architecture.

and changed the meaning of the beauty of buildings.
We shouldn't forget about this heritage because
this Tower showed that a beautiful and wonderful
monument is not just a piece of stone with beautiful
ornaments on it, it ~~can~~ could be made of different
materials such as iron, glass and others and could
have an extraordinary shape.

WRITING

Recently I have seen the notice in an English-language magazine called "Cultural Mosaics". Now I am going to give a review on it. In my opinion, cultural heritage means something really great that was created by human during the long time. I think that Eiffel Tower should be called as the real European cultural heritage. This foundation has a long and interesting history of creation. Moreover Eiffel Tower is a wonderful sight that appeals thousands of tourists. It really worths seeing it at night when all the lights are turned on and tower looks like a big Christmas tree. Eiffel Tower is situated in the centre of Paris, so it is very convenient for tourists. I think we should keep it for next generations because it is a great grand and beautiful building which should be seen by everyone.

WRITING

2018 year was proclaimed by UNESCO as the Year of European Cultural Heritage. There are so many things that we can call "European culture". Big Ben or maybe Eiffel Tower, for example. In my opinion, literature is the most important heritage: Shakespeare's poems or some poems from another different authors.

For example, "Hamlet" by Shakespeare. I do not remember details about its history but I am sure that it is one of the most interesting and intense stories. I want people to read a lot of Shakespeare's stories and sonnets because it is worth doing that. We should keep all cultural heritage for next generations to save our culture and to be remembered by our children in future.

WRITING

As we all know, 2018 is ^{the} year of European Cultural Heritage. When I think about Europe, I always imagine the Eiffel Tower, because it is the most recognizable building. I don't know anybody who has never heard about it.

The Eiffel Tower is situated in Paris, in the "city of love". That's why everybody thinks about it when they hear about love, the most positive sense in our life. This monument should be a symbol of happiness and family.

In conclusion, I must say that we must take care about all memorials as long as we can. But The Eiffel Tower should be a symbol of Europe because something

should remind us and our next generations about
their family, relatives, and friends

Eiffel Tower is situated in Paris, it was founded many years ago by famous architect Eiffel. It's one of the highest building of France and of the world, as well. In my opinion, we should keep it for next generations

The Real European Heritage.

In my opinion the real European cultural heritage is the Eiffel Tower. It is very high building and looks like a big metal pyramid. The Eiffel Tower is situated in France. It is the main place of interest of this country. Tourists come from different parts of world to look at the Tower and to take some photos near it. The Eiffel Tower was built many years ago. It is a wonderful piece of art.

Taking to the consideration all mentioned above I would like to say that we should keep cultural heritage because they make people better and take part in their development.

WRITING

As we know, 2018 is the Year of European Cultural Heritage. I think you have already read a lot of information about such famous places like Big Ben, Eiffel Tower, London Bridge and so one. So let me tell you about rather young but very interesting object - Millennium Bridge.

It is situated in London, in the centre of the city. It is different from other bridges because bridge has very modern construction. The name "Millennium" means a new era - the third millennium.

It is not very long but rather wide. There are a lot of pedestrians here especially in the evening.

3

because all the lights turn on and you can get a lot of beautiful photos and have a picturesque view of the city.

So, if you will have an opportunity to visit London's Millennium Bridge, don't miss it. I think you will be impressed by this attractive place a lot.

WRITING

In my opinion, nowadays literature is becoming more and more popular. As for me, when I'm thinking about European Cultural Heritage, the French literature occurs to me. In my point of view, the real European cultural heritage is the books by Victor Hugo. These books give us an information about France in XIII-XIV ceneuries and it is very interesting and useful. Also they can give very useful lessons and advice. It helps us to solve some problems, such as relations between layers and citizens. It teaches us to see the beauty in all things, which surround us. That is why I think that this author should be kept for next generations. In conclusion, I'd like to say that we should not forget other kinds of culture, such as music, architecture.

WRITING

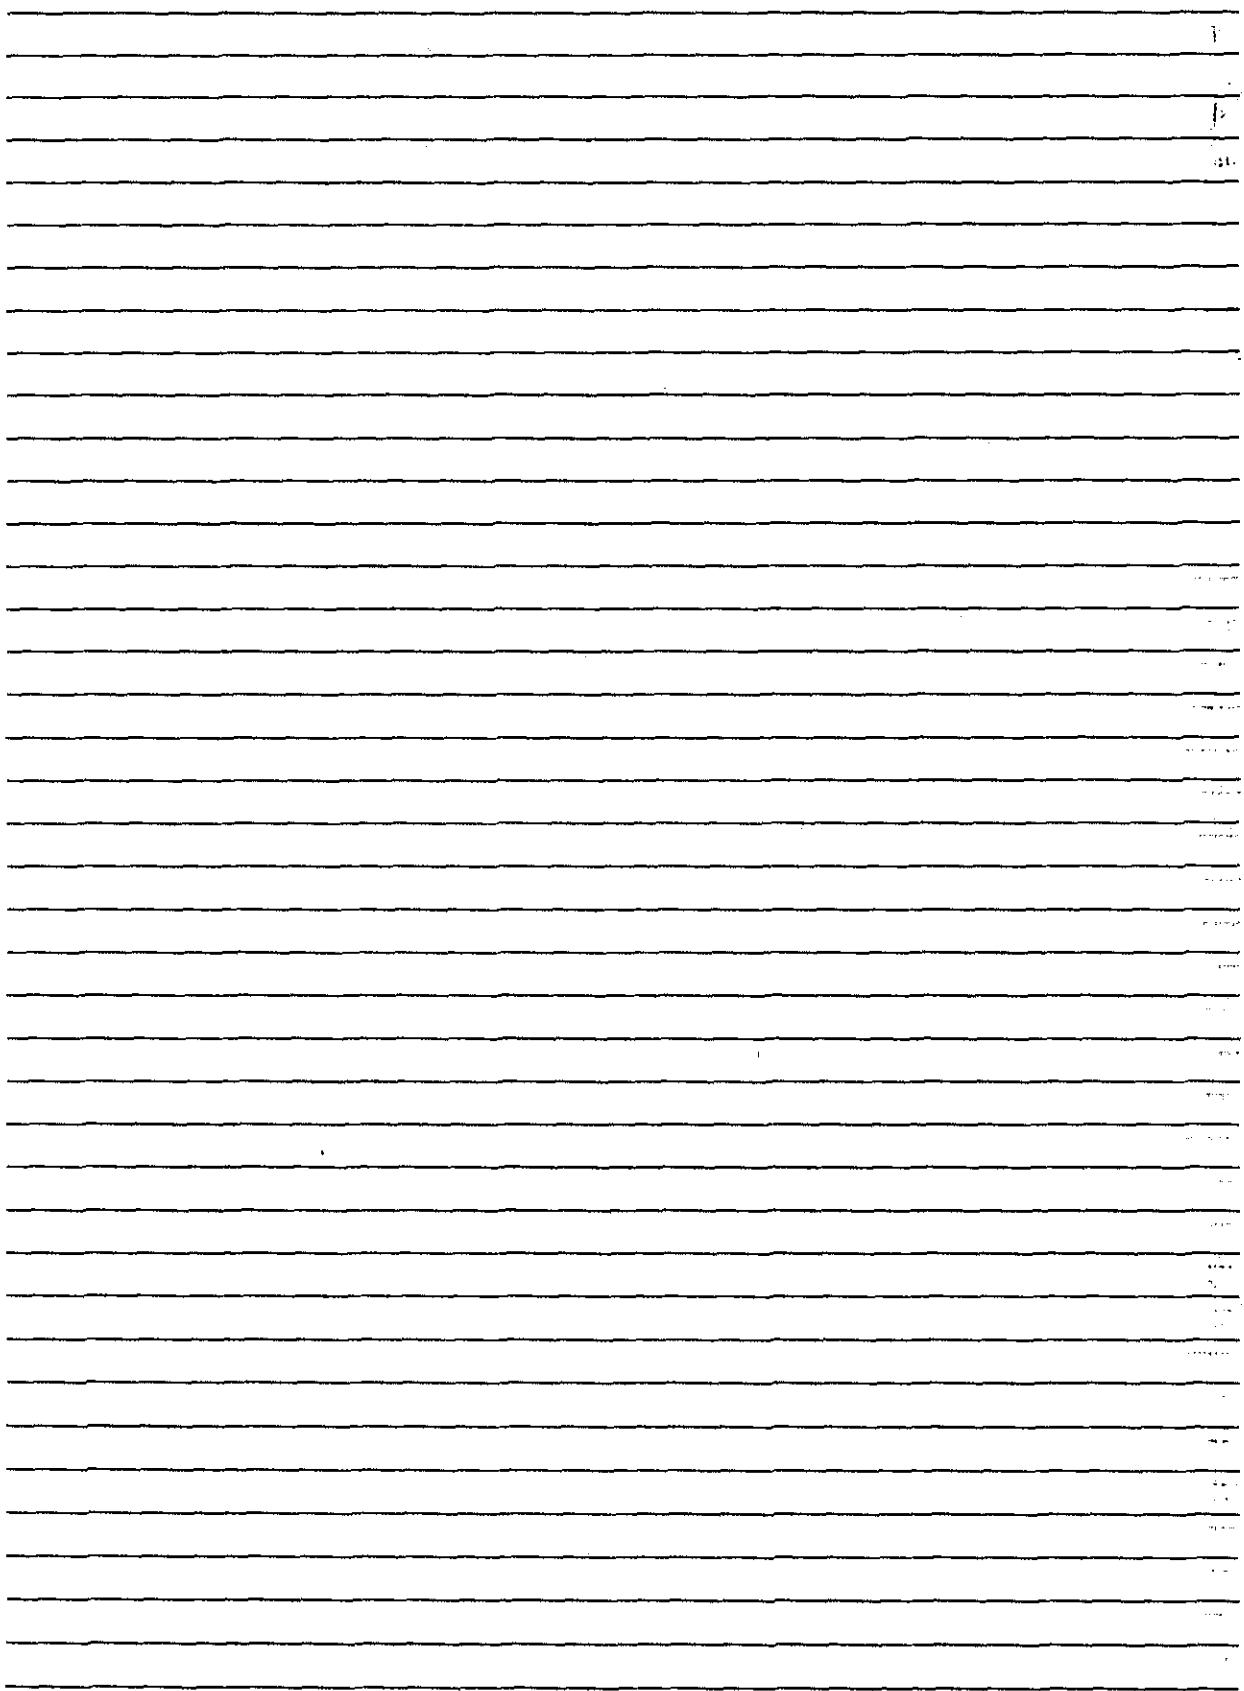

I would like to start with the idea that we must keep some heritage for next generations. It helps them to know about history and people who play an important role in their country. I think that we should build more museums, monuments.

Ques 1) I think that Shakespeare's sonnets are should be real European cultural heritage because the next generation will know about Shakespeare's life and time when he lived. Shakespeare's sonnets are very exiting and can give a lot of emotions. Nowaday there are few writers who can do something really interesting. and writers of last centuries are the best. That all I would like to tell to say about cultural heritage.

When I think about European Cultural Heritage the first thing which occurs to me is Hermitage. It is located in Saint Petersburg, Russia and was built in the 18th century. It is important for history, especially for Russian history, because the Hermitage contains paintings, valuable pieces, things which were belonged to Russian Princes and Princesses. I believe that we should keep it for next generations as they need to know what was before them and why something happened. The Hermitage is also an architectural heritage as it reflects the style of the past centuries. That is why the importance of the Hermitage cannot be denied and we must protect it for

the sake of our children and grandchildren. 117cm

This year was proclaimed by UNESCO as the Year of European Cultural Heritage. I know about this event and it occurs to me the Eiffel Tower. It is located in Paris. It was built in 1889 for the competition of the greatest buildings in the world. And the Eiffel Tower took the first place. I was in Paris and saw it. I was shocked and excited. After that I raised at the top of it, I felt like I was at the top of the world. There I could see the whole city.

We must save it for the next generations because it is like the 8th wonder in the world. If I

all to save it. Because we don't need to ruin
things, those were built by our ancestors?

Dear Cultural Mosaics,

I would like to tell you about an object I consider to be the real European cultural heritage. I think, the real ^{object of} European cultural heritage can be the monument to Peter the First. It is situated in Sankt-Petersburg. A long time ago, some people built it because Peter the First created Sankt-Petersburg. They wanted to do something that would decorate this city. I think this monument can be the real object of cultural heritage because it's very famous and all tourists who went to Sankt-Petersburg also went to this monument. As for me, we should keep it for next generations because Peter the first was the greatest human in history.

I think the Eiffel Tower is considered to be the real European cultural heritage. Because when you remember France the first thing you think is Eiffel Tower. It was built in the 19th century. The tower is located near the centre of Paris. A lot of tourists visit it every day. A lot of things have happened since this tower was built. France took part in First and Second World Wars. ~~After~~ A lot of rulers of the country changed, and etc. That's why it's one of the European cultural heritages. What is the real cultural heritage? Everyone has its own point of view for this question.

As for me, person who likes theater and all that is connected with it, I think the real cultural heritage is Shakespeare's piece called "Romeo and Juliet". If you can I at once you would understand me. For my opinion it is the most beautiful love story I have ever seen. I think we must keep it for our children and then for their children, because this story shows us how unexpected life can be. Besides, it teaches us to be patient and to believe in our dreams.

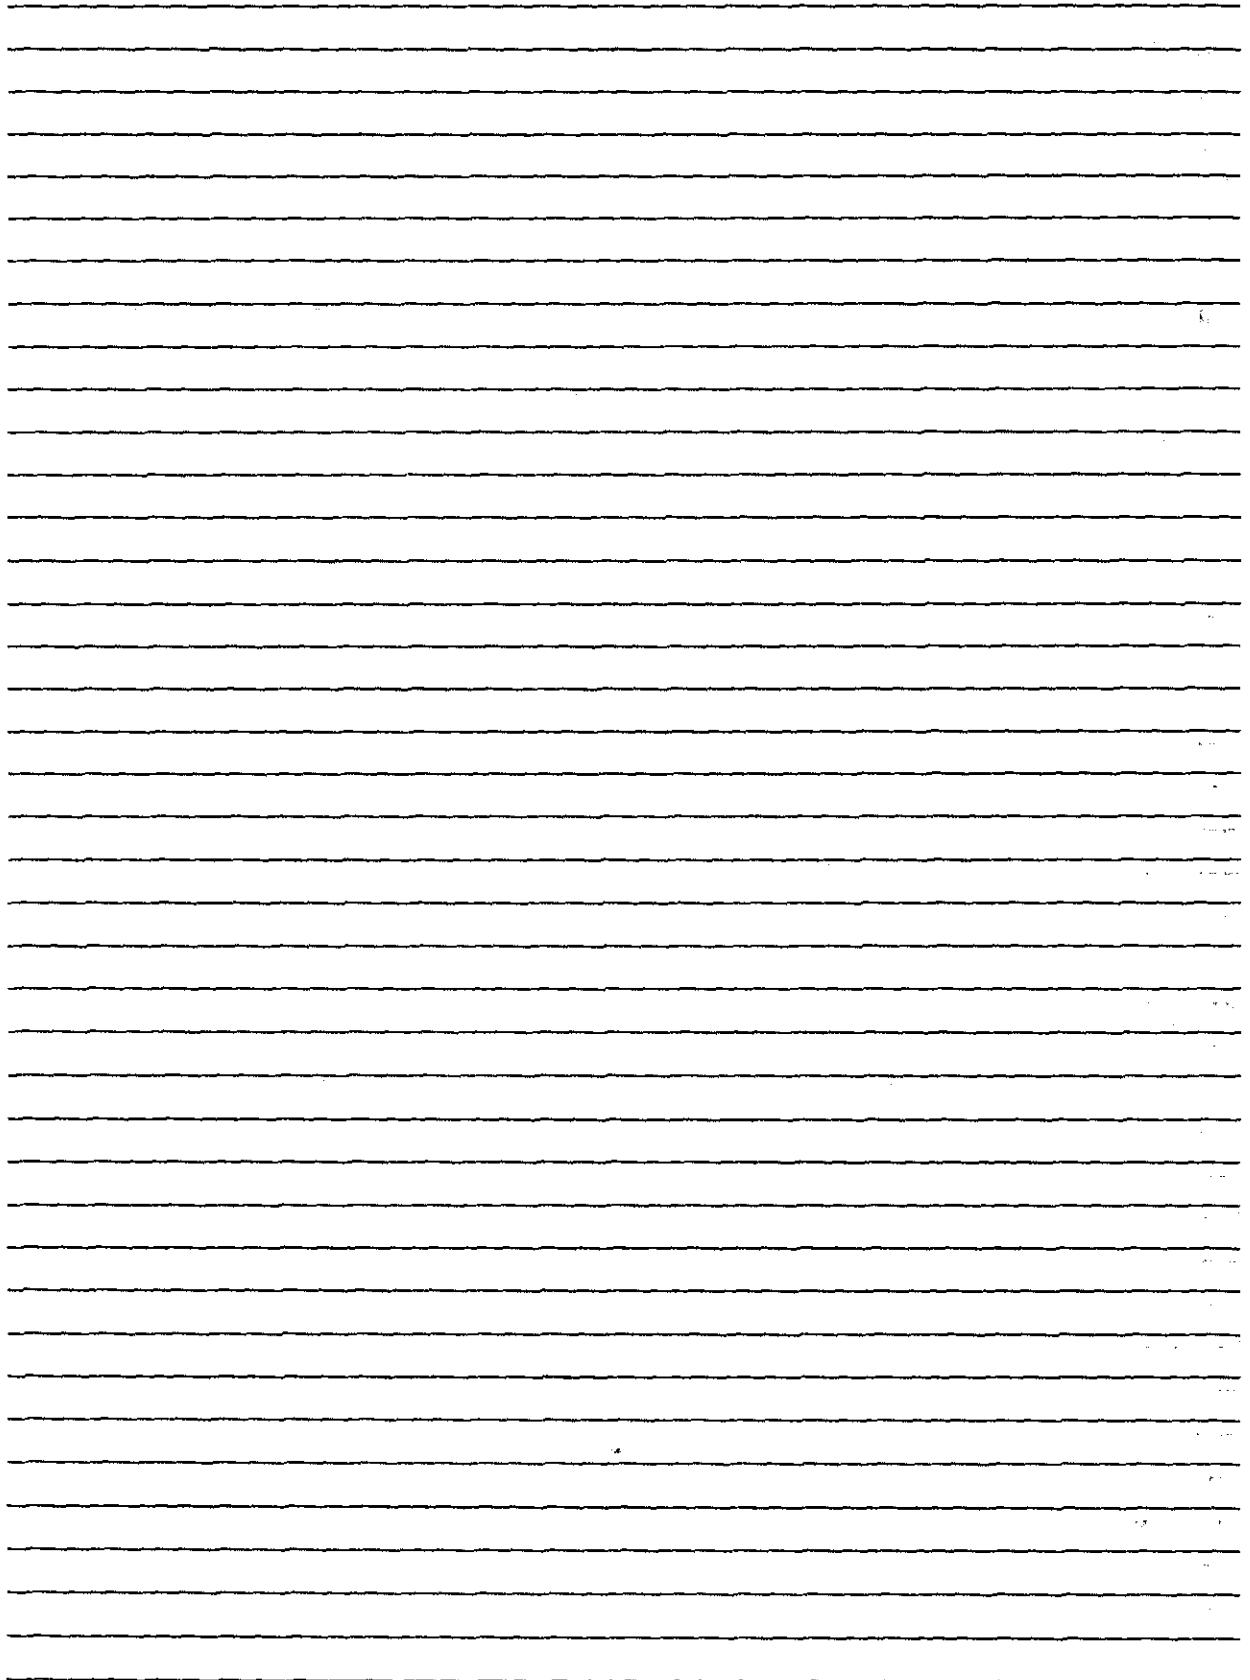

For sure Finally, I want to say that everyone has its own cultural heritage, that has importance for them.

WRITING

Recently I have read a magazine called "Cultural Mosaics". So I'd like to write a short review and express my opinion about cultural heritage. To begin with, there are lots of cultural places in different parts of Europe. They are Eiffel Tower, Big Ben and etc. The Colosseum in Rome is the main association with cultural heritage for me. It was built in Rome. The Olympic Games, which were performed there, were the best entertainment many years ago. A lot of people took part in competitions only for the sake of kings' entertainment. After performances kings had big meetings and celebrated the victory of participants.

In conclusion, I want to say that we should do our best to preserve the Colosseum and its cultural heritage, for next generations because they should learn about history of cultural sightseeings.

There ^{is} some European cultural heritages that people should keep for their next generations. They are poems, novels, architectural buildings, national plates, dances, etc.

In my opinion, Shakespeare's works can be named a real European cultural heritage. William Shakespeare is a famous British writer. He is the author of "Hamlet", "Romeo and Juliette" and, of course, his sonnets.

It is very important for people to know not only the history of World to know about wars, kings, and explorers and scientists, but also to know the history of Arts, about talented and wonderful people who tried to change the world to make the world better.

Hello,

My name is Fyodor. I am keen on learning English and the history of England (a bit).

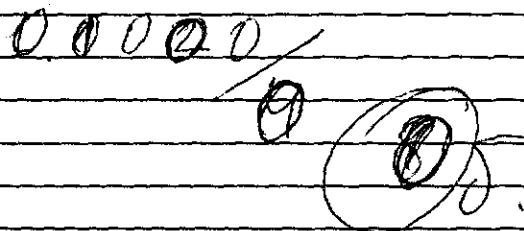

In my opinion, the most appropriate object to be considered as the real European cultural heritage is Russian literature. However, other countries' literature can get ~~the~~ this name but, owing to the big and rich Russian language, its flexibility and beauty, our novels and poems match more.

In addition, Russian writers are known all over the world. I can name Pushkin, Tolstoy,

Gogol, Lermontov, Griboedov and so on. Moreover, when you hear „a famous Russian poet“ you probably think of Pushkin. Many people find our literature attractive and interesting.

To be honest, there are more objects I consider to be the Heritage but saying „Russian literature“ is the first thing I come up with.

There are a lot of beautiful and breathtaken cultural heritages in Europe personally, as for me I consider Louvre the real European Cultural Heritage. It is a place where the most popular and significance pictures are held. It is situated in a beautiful and romantic country France, in the capital of Paris. Louvre is a very important gallery for history, because there are a lot of pictures that were painted by world-famous artists and every person can see how the world culture has been developing. I think that all people should visit this place and learn the history of art.

European society has been developing for thousands of years. Genius artists, sculptors, composers made up their arts through ^{part of world} this area. My review is about one of the most famous cultural heritage - „Mona Lisa” by Leonardo da Vinci.

Leonardo has been painting „Mona Lisa” for decades of years, because he wanted to make every detail more accurate.

We can see beautiful woman in this painting. She wears dark clothes, that are not connected to Medieval ages as they could be. Women all over the world wear such clothes today. It makes painting immortal, and actual for modern life. „Mona Lisa” is located in world-famous museum Hermitage, where Leonardo da Vinci's work

can be kept in safety. We can say that its significance for history is provided by Mona's smile. Critics cannot understand the riddle of the woman's smile.

To the Conclusion, it is obvious, that people should keep it for next generations, because "Mona Lisa" is masterpiece of art; that will never stop calling strong emotions in people's mind.

I consider that Buckingham palace is the real European cultural heritage. In my opinion a lot of people come to Great Britain to admire it's beauty in real life. It is a very interesting fact that the owner of the palace was a German man. The King was invited to the palace as a guest so he liked the place and decided to buy it. That is how the royal family started to live there. By the way once the Buckingham palace saved the country when the government of England did not have money. He decided to open the part of the palace as a museum. A lot of tourists come to the country to watch how the royal family live at the same time.

This place has a big significance for history. The royal family lives their for centuries and our next generations need to know this place and the history that it keeps.
